Lawrenceville, GA | (651)-206-4261 | Permanent Resident | trong.the.phan0145@gmail.com | [Linkedin](#) | [Github](#)

WORK EXPERIENCE

[Rêve](#) - Local Homemade Dessert Vendor

May 2025 - Nov 2025

Event Operations & Logistics Assistant

Atlanta, GA

- Set up event stalls, prepared food items, and managed customer interactions while multitasking across order taking, restocking supplies, communicating order status with the team, and maintaining an efficient workflow to serve 100+ visitors per event.

[Ovative Group, LLC](#)

Jun 2022 - Feb 2025

Advanced Analytics Analyst

Minneapolis, MN

- Applied incrementality testing to measure multi-channel campaign performance across 7+ clients, identifying budget inefficiencies and underperforming channels; delivered insights that drove strategic reallocation and improved media ROI.
- Designed and executed a CTV incremental geo holdout test for a national fashion retailer, validating its impact on revenue (34% increase); leveraged the results to recalibrate marketing models and inform future media allocation strategies.
- Conducted precision simulation studies on 3 years of sales data to analyze sales trends and identify optimal testing windows for 5+ clients, preventing up to \$600K in excess spending and ensuring 90-95% confidence in marketing tests.
- Streamlined an R-based geo-testing simulator by pinpointing recurring input issues and shifting to one-sided processing, cutting runtime and reducing setup errors by 80%, thereby accelerating the delivery of test insights.
- Collaborated with cross-functional teams to create a centralized knowledge base of methodologies, testing processes, and case studies, which improved test design consistency across teams and saved over 130 hours annually in test setup.

[University of Minnesota-Twin Cities | CFANS Budget and Finance Department](#)

Aug 2019 - May 2022

Accounting Assistant

Minneapolis, MN

- Engaged 40+ staff across 3 departments to clarify incomplete purchase justifications, accurately reconciling 100% of transactions after 30 days they occurred through timely and consistent follow-ups.
- Developed a standardized justification guide for staff, reducing incidents of insufficient justifications by 50%.

[Y Venture Group](#)

Jul 2020 - Aug 2020

Data Analyst Intern

Singapore

- Partnered with 3 interns to analyze 1M+ U.S. book sales records using advanced Excel, uncovering regional and seasonal demand trends to inform inventory strategy.
- Developed Tableau dashboards that empowered senior management to make informed decisions on investments.

SKILLS

- Testing & Experimentation:** Time-based Regression. Hypothesis testing, Scenario Modeling.
- Programming & Project Management Tools:** Python, Power BI, R, Posit, Excel, PowerPoint, and Word, Confluence, ClickUp
- Databases & Warehousing:** MySQL, BigQuery.
- Soft Skills:** Data Storytelling, Stakeholder Communication, Critical Thinking, Cross-Functional Collaboration.

EDUCATION

[University of Minnesota - Twin Cities \(Carlson School of Management\)](#)

Graduated May 2022

Bachelor of Science in Management Information Systems

Minneapolis, MN

- Double Major: Supply Chain Operations, Minor: Business Analytics

GPA: 3.86

PROFESSIONAL DEVELOPMENT & PROJECTS

[Mastering Data Analytics](#) - Business Intelligence Program

Oct 2025 - Dec 2025

- Developed advanced skills in data visualization and storytelling through hands-on training with Power BI and Excel.
- Completed a capstone analytics project simulating real-world business scenarios, including extracting, transforming, and modeling data, then crafting and presenting a data-driven narrative to turn insights into actionable recommendations.

Customer Segmentation Using K-Means Clustering on Online Retail Data ([View Project](#))

Aug 2025

- Engineered a Python-based segmentation model using KMeans on RFM metrics, analyzing 500K+ retail transactions to identify 7 customer segments for targeted marketing and retention.
- Visualized cluster insights and outlier patterns with Python (Matplotlib, Seaborn), delivering actionable recommendations to enhance customer lifetime value and personalize engagement.

CERTIFICATE

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) Certification

Dec 2025
